

The Community Library

We are planning on running our library on Saturdays too! This move will allow the kids more time to use the library. We also plan to use the time on Saturdays to engage the kids in fun activities that are bible oriented. We have partnered with an organization known as Colour My World to run this programme and we are excited to see what we will achieve together. Please pray with us as we put our plans together.

Home Visits

Every year, Margaret, our social worker visits the homes of our kids to assess their progress at home. Another aim of the visit is to assess the risk, protection and welfare of our kids at home. Our kids live in very poor conditions and the stories of their day to day lives is emotionally draining. Please pray for strength for Margaret as she carries out this important and necessary practice.

Secondary School Students

We are delighted that all our kids who did their KCPE, last year, and qualified to join secondary school are all in school now. They are very excited and at the same time anxious about what to expect. Most of them are in schools far away from their parents and in environments quite different from Kibera. Our prayer is that they will settle in well and enjoy their time in school.
